**THE PROFESSIONAL'S  
CHOICE IN SAFETY**

[CHOICE] PRO™

[SAFETY GEAR]

The choice of Personal Protective Equipment is an important start to workplace safety.

### Our ProChoice range is the Professional's Choice in Safety.

The ProChoice range of safety gear has been available in Australia since 1992. Our company has grown because we are committed to providing excellent service and quality products... and the launch of our new look brand shows our commitment to delivering exceptional products to you.

We understand the importance of Personal Protective Equipment in workplace safety and have sourced and developed a range of safety products from across the globe to meet the needs of every working environment.

### The ProChoice Promise

- **Value.** We deliver quality products at competitive prices.
- **Quality.** We seek Australian and European safety standards wherever possible.
- **Design.** All of our products have been designed for safety, comfort, performance and style.
- **No 1 Network.** ProChoice is available through an extensive network of stockists throughout Australia.
- **Proudly Australian.** We are a wholly Australian-owned company.

HEADWEAR ]**

## Protective Headwear

Safety starts at the top and the ProChoice range of hard hats and accessories have been designed to provide maximum protection and comfort.

ProChoice understands Australian conditions and has developed this range to give efficient air-flow, accommodate sweatbands and to accept additional sun protection accessories, yet still be lightweight and robust. Not a bad effort you'll agree.

All ProChoice hard hats are manufactured under an ISO9002:1994 Quality System. Every hard hat is tested and inspected to AS/NZS1801 so it meets the needs of construction and industry in Australia.

All safety hard hats worn on construction sites should conform with the requirements of AS1801 – Industrial Safety Helmets and be maintained in accordance with AS1800 – The Selection, Care and Use of Industrial Safety Helmets.

[www.workcover.nsw.gov.au/Publications/OHS/SafetyGuides/helmets](http://www.workcover.nsw.gov.au/Publications/OHS/SafetyGuides/helmets)

### Head protection

Prevention of head injuries is an important factor in every safety program. A single injury can handicap an employee for life, or it can be fatal. Surveys in the UK have noted that most workers who suffered impact injuries to the head were not wearing head protection. The majority of workers were injured while performing their normal jobs at their regular worksites.

More than one-half of the workers were struck on the head while they were looking down and almost three-tenths were looking straight ahead. While a third of the unprotected workers were injured when bumping into stationary objects. These actions injured only one-eighth of hard hat wearers. Elimination or control of a hazard leading to an accident should, of course, be given first consideration, but many accident-causing head injuries are of a type difficult to anticipate and control. Where these conditions exist, head protection must be worn to protect against injury!

### Suggested applications for protective headwear

- Agriculture
- Construction
- Food Processes
- Logistics and Distribution
- Manufacturing
- Mining
- Oil and Gas Industry
- Waste and Water Treatment

Did you know that in Australia in 2002 there were 1879 claims for cranium injuries (and that doesn't include injuries to the face, nose, mouth, eyes or ears)

(National Workers' Compensation Statistics Database – [nosi2.nohsc.gov.au](http://nosi2.nohsc.gov.au))

### How hard hats protect you

Hard hats protect you by providing the following features.

- A rigid shell that resists and deflects blows to the head
- A suspension system inside the hat that acts as a shock absorber
- A hard hat shields your scalp, face, neck and shoulders against splashes, spills and drips
- Hard hats have additional accessories added such as face shields, goggles, hoods or hearing protection

## Hard Hats/Accessories

HHV6

### VENTED Hard Hats

- Colour range of VENTED hard hats
- Individually packaged
- Available in white, yellow, red, blue, green, orange and fluoro yellow (colours can be assigned to location, job or industry)
- 6 point harness
- Lightweight
- Air vents and cotton sweatband prevents perspiration build-up
- Extended peak for added protection and an edge gutter to catch and deflect rain
- **Quantity per carton - 20**

HHV6

### Hard Hat Harness

- 6 point harness to suit ProChoice hard hat models HHV6 and HH6
- Lightweight replacement harness
- Cost effective solution - change harness only
- **Sold individually**

HHH

### Cotton Sweatband

- ProChoice cotton sweatband to suit HHV6 and HH6 hard hats
- Replaceable for hygiene and comfort
- **Sold individually**

HHSB

HH6

### UNVENTED Hard Hats

- Colour range of UNVENTED hard hats
- Individually packaged
- Available in white, yellow, red, blue, green, orange and fluoro yellow (colours can be assigned to location, job or industry)
- 6 point harness
- Lightweight
- Cotton sweatband prevents perspiration build-up
- Extended peak for added protection and an edge gutter to catch and deflect rain
- **Quantity per carton - 20**

HH6

HHRH

### Hard Hat Ratchet Harness

- Hard hat harness with ratchet adjustment for quick and easy fit
- Compatible with ProChoice hard hat models HHV6 and HH6
- **Sold individually**

HHRH

HHBG

### Lift-up Brow Guard

- To suit hard hat models HHV6 and HH6
- Lightweight guard will accommodate VS and VC visor for added comfort
- Fitted with Quicklock clips for quick and easy visor replacement
- **Sold individually**

HHBG

HHCS

### Adjustable Chin Strap

- Adjustable hard hat chin strap
- Keeps hard hat in place in active situations
- Comfy elastic material
- **Sold individually**

HHCS

CSH

### Canvas Sunhat

- Wide and protective brim
- Adjustable chin strap
- Available in white, navy blue and green
- **Sold individually**
- **Quantity per carton - 12**

CSH

## Head Protection Questions and Answers

HHB

### Detachable Hard Hat Brim

HHB

- Durable cotton
- Excellent sun protection with neck flap
- Available in white, navy blue and green
- **Sold individually**
- **Quantity per carton - 12**

### Also Available Plastic Hard Hat Brim (not Pictured)

HHPB

- Available in white, orange and navy blue
- UV stabilised plastic, removable and washable neck flap
- Holds shape in hot and wet climates
- **Sold individually**
- **Quantity per carton - 12**

### What is the life span of an industrial safety hard hat?

There is a lot of confusion as to what is considered to be an acceptable working life of a safety hard hat. Unfortunately there can be no hard and fast rules concerning this. There is no test in the Australian / European Standard to cover this, and it would be difficult, if not impossible to devise such a test.

In use, head protection is generally treated with a lack of care, often being thrown or dropped, used as a receptacle for all manner of items, or carried on the rear window shelf of a vehicle. None of these actions are conducive to continued performance.

Users should regularly inspect both the hard hat shell and its harness for signs of wear and tear.

### Replace your hard hat when:

- Cracks appear in the shell
- The shiny surface appears dull or chalky
- The shell becomes brittle
- Impact with hard hat surface has been made

### Replace your harness when:

- The harness become brittle
- One or more of the mounts break off
- The harness will no longer hold securely to the head
- The harness straps break or become worn

Inspect your hard hats before and after each use. Although there is no set service life for hard hats, we recommend replacement after no more than 5 years.

### What testing do our hard hats undergo?

All ProChoice hard hats are manufactured under an ISO9002:1994 Quality System. Every batch of hard hats that you receive will have been tested and inspected to AS/NZS1801 before you receive them.

### Date stamp? Is that like a best before date?

No, we are required by the Australian / European Standard to mark each hard hat with the month and year of manufacture. This should not be used as a basis for determining the life of an industrial safety hard hat.

### Does the harness do anything except keep the hard hat on the head?

Yes! The harness is an integral part of all ProChoice hard hats and works by stretching to absorb some of the energy of the impact. The harness also spreads the force of an impact evenly over the wearer's head minimising the risk of harm to the wearer.

### Can I modify my hard hat's shell - such as drill some ventilation holes or rig up a lamp on the front?

No, this would definitely affect the performance of your hard hat. If you feel that extra ventilation is needed, then there is the ProChoice model that does include ventilation holes at the top of the hard hat.

### Can I use a chin strap supplied by a different company?

No. To conform with the Australian Standard 1801 it became necessary to alter the design of our chin straps slightly.

Under this standard it became necessary for the chin strap to break when a specific load is applied. A ProChoice chin strap may break in a different manner to another company's chin strap so you should only use a ProChoice chin strap on a ProChoice hard hat.

**"Strong, sturdy,  
dependable and  
best of all -  
they've got  
style - I wear  
them on the  
weekend,  
they're great!"**

**[ PROTECTIVE  
EYEWEAR ]**

## Protective Eyewear

The ProChoice range of eyewear is second to none. From the latest designs in sunglasses to superior safety goggles, we have you covered.

We pride ourselves on the quality of materials used in developing this eyewear range and the protection they provide to the people who wear them.

The ProChoice Premium range goes above and beyond the call of duty. High performance. Amazing style. And built to last.

ProChoice also has excellent inner carton packaging for in-store or on-site displays which makes it easy to select the right type of eyewear for the job at hand.

### ProChoice Outdoor Sunglasses

Our safety specs are designed to look good and do the job. They all feature:

- Medium impact, polycarbonate lenses
- Lightweight designs
- Increased comfort for extended wear
- 99.9% UV Protection making them ideal for outdoor use
- All comply with AS/NZS 1337: Lic 2144

### What to check for when choosing eye protection

- Check for the Australian Standards logo
- Check for a minimum of a Medium Impact lens
- Make sure you're using the right eyewear for the right job (See our Guide to the Selection of Appropriate Eyewear on p13 of this catalogue)

Lens Marking	Type of Lens
I	Medium impact
V	High impact
M	Molten metal & hot solid resistant
O	Outdoor use, untinted

Did you know that Australia wide in 2002 there were 6435 claims for eye injuries?

(National Workers' Compensation Statistics Database – [nosi2.nohsc.gov.au](http://nosi2.nohsc.gov.au))

### ProChoice Eyewear special features

Extendable arms for custom and comfortable fit for all faces

New designs to suit all workers' needs

Ratchet arms for custom fit and to fit under hard hats and headgear

Australian Standard compliant medium impact resistant lens

Silicone nose piece for comfort and extended wear

## Safety Glasses

1300

### TYPHOON CLEAR

1300

- Medium impact, anti-scratch lens
- One-piece lens with side shields offering side-of-face protection
- 99.9% UV protection for outdoor wear
- Ratchet & extendable arms for custom fit
- **Quantity per box - 12**
- **Quantity per carton - 144**

1302

### TYPHOON SMOKE

1302

- Medium impact, anti-scratch lens
- One-piece lens with side shields offering side-of-face protection
- 99.9% UV protection for outdoor wear
- Ratchet & extendable arms for custom fit
- **Quantity per box - 12**
- **Quantity per carton - 144**

2000

### WAVE CLEAR

2000

- Medium impact, anti-scratch lens
- Anti-fog lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Lightweight providing greater comfort for extended wear
- Clear sidearms
- **Quantity per box - 12**
- **Quantity per carton - 144**

2002

### WAVE SMOKE

2002

- Medium impact, anti-scratch lens
- Anti-fog lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Lightweight providing greater comfort for extended wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2003

### WAVE BLUE MIRROR

2003

- Medium impact, anti-scratch lens
- Lightweight providing greater comfort for extended wear
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

3000

### VISITORS CLEAR

3000

- Medium impact, anti-scratch lens
- Deep design allows the glasses to be worn over prescription spectacles
- 99.9% UV protection for outdoor wear
- One piece frame provides unobstructed 180° view
- **Quantity per box - 12**
- **Quantity per carton - 144**

3002

### VISITORS SMOKE

3002

- Medium impact, anti-scratch lens
- Deep design allows the glasses to be worn over prescription spectacles
- 99.9% UV protection for outdoor wear
- One piece frame provides unobstructed 180° view
- **Quantity per box - 12**
- **Quantity per carton - 144**

4600

### PRIMA CLEAR

4600

- Medium impact, anti-scratch lens
- One piece wrap around lens with side shields offers excellent side-of-face protection
- 99.9% UV protection for outdoor wear
- Extendable arms with ratchet adjustment for custom fit
- **Quantity per box - 12**
- **Quantity per carton - 144**

## Safety Glasses

4602

### PRIMA SMOKE

4602

- Medium impact, anti-scratch lens
- One piece wrap around lens with side shields offers excellent side-of-face protection
- 99.9% UV protection for outdoor wear
- Extendable arms with ratchet adjustment for custom fit
- **Quantity per box - 12**
- **Quantity per carton - 144**

6700

### BREEZE CLEAR

6700

- Medium impact, anti-scratch lens
- Stylish, wrap around design which promotes wear in any work environment
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

6702

### BREEZE SMOKE

6702

- Medium impact, anti-scratch lens
- Stylish, wrap around design which promotes wear in any work environment
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

6704

### BREEZE SILVER MIRROR

6704

- Medium impact, anti-scratch lens
- Stylish, wrap around design which promotes wear in any work environment
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

6705

### BREEZE AMBER

6705

- Medium impact, anti-scratch lens
- Stylish, wrap around design which promotes wear in any work environment
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

8600

### PHOENIX CLEAR

8600

- Medium impact, anti-scratch lens
- Frameless and ultra lightweight to increase comfort for extended wear
- 99.9% UV protection for outdoor wear
- Comfortable silicone nose piece
- **Quantity per box - 12**
- **Quantity per carton - 144**

8602

### PHOENIX SMOKE

8602

- Medium impact, anti-scratch lens
- Frameless and ultra lightweight to increase comfort for extended wear
- 99.9% UV protection for outdoor wear
- Comfortable silicone nose piece
- **Quantity per box - 12**
- **Quantity per carton - 144**

8605

### PHOENIX AMBER

8605

- Medium impact, anti-scratch lens
- Frameless and ultra lightweight to increase comfort for extended wear
- 99.9% UV protection for outdoor wear
- Comfortable silicone nose piece
- **Quantity per box - 12**
- **Quantity per carton - 144**

## Safety Glasses / Goggles

9000

### FUTURA CLEAR

9000

- Medium impact, anti-scratch lens
- Anti-fog lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- Comfortable silicone nose piece
- **Quantity per box - 12**
- **Quantity per carton - 144**

9002

### FUTURA SMOKE

9002

- Medium impact, anti-scratch lens
- Anti-fog lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Ultra lightweight to increase comfort for extended wear
- Comfortable silicone nose piece
- **Quantity per box - 12**
- **Quantity per carton - 144**

9200

### FUSION CLEAR

9200

- Medium impact, anti-scratch lens
- One piece wrap around lens offers excellent side-of-face protection
- 99.9% UV protection for outdoor wear
- Comfortable silicone nose piece
- Comes with bonus spec cord
- **Quantity per box - 12**
- **Quantity per carton - 144**

9202

### FUSION SMOKE

9202

- Medium impact, anti-scratch lens
- One piece wrap around lens offers excellent side-of-face protection
- 99.9% UV protection for outdoor wear
- Comfortable silicone nose piece
- Comes with bonus spec cord
- **Quantity per box - 12**
- **Quantity per carton - 144**

4900

### SUPA-VU CLEAR Goggles

4900

- Excellent general purpose goggles
- Lightweight providing increased comfort for extended wear
- 99.9% UV protection for outdoor wear
- Adjustable strap for custom fit
- **Quantity per box - 12**
- **Quantity per carton - 144**

3500

### SCOPE CLEAR Goggles

3500

- Medium impact, anti-scratch lens
- Anti-fog, hardened 2mm lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Good chemical splash protection
- Foam bound with wide strap for comfort
- Economical replacement lens available
- **Quantity per box - 12**
- **Quantity per carton - 72**

3502

### SCOPE SMOKE Goggles

3502

- Medium impact, anti-scratch lens
- Anti-fog, hardened 2mm lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- Good chemical splash protection
- Foam bound with wide strap for comfort
- **Quantity per box - 12**
- **Quantity per carton - 72**

3500L

### SCOPE 3500 Goggles Replacement Lens

3500L

- Medium impact, anti-scratch lens
- Anti-fog, hardened 2mm lens ideal for use with dust masks in humid conditions
- 99.9% UV protection for outdoor wear
- **Sold individually**
- **Quantity per carton - 12**

## Accessories

Accessories

### Spectacle Cord

SC

- To suit any style of ProChoice eyewear
- Made from polycotton
- Can be worn around neck for convenience

### Spectacle Pouch

SP

- To suit any style ProChoice eyewear
- Made from microfabric, the pouch protects eyewear and doubles as a lens cleaner

## Premium Range

2502S

### SKYHAWK SMOKE

2502S

- Medium impact, anti-scratch lens
- Lightweight nylon metallic finish frame and polycarbonate temple with PVC soft tip arms
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2502B

### NIGHTHAWK SMOKE

2502B

- Medium impact, anti-scratch lens
- Lightweight nylon metallic finish frame and polycarbonate temple with PVC soft tip arms
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2200

### EAGLE 1 CLEAR

2200

- Medium impact, anti-scratch lens
- Lightweight nylon frame and polycarbonate temple with PVC soft tip arms
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2208

### EAGLE 1 INDOOR/OUTDOOR

2208

- Medium impact, anti-scratch lens
- Lightweight nylon frame and polycarbonate temple with PVC soft tip arms
- 100% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2202

### EAGLE 1 SMOKE

2202

- Medium impact, anti-scratch lens
- Lightweight nylon frame and polycarbonate temple with PVC soft tip arms
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

2400

### HORNET CLEAR

2400

- Medium impact, anti-scratch lens
- Lightweight nylon frame and polycarbonate temple with rubber injection-moulded arms
- 99.9% UV protection for outdoor wear
- **Quantity per box - 12**
- **Quantity per carton - 144**

## Appropriate Eyewear Selection Guide

The following table gives some guidance in the selection of appropriate protective eyewear; whether a Spectacle, Goggle or Faceshield. In all cases, a proper risk assessment should be carried out by a suitably qualified Occupational Health and Safety professional.

### Remember

- Use only AS/NZS1337 approved eyewear
- Review the work area for potential hazards and select the appropriate eye and/or face protection in consultation with your Occupational Health and Safety professional
- Faceshields can be worn over spectacles or goggles

Work Situation	Spectacle	Goggle	Faceshield
Chemical Cleaning		•	•
Education	•	•	•
Furnace Operation, Pouring, Casting			•
General Engineering Workshop	•	•	•
General Factory Areas	•	•	
Hazardous Chemical Use (Splash)		•	•
High Dust Environment		•	•
Laboratories - Hazardous Chemical		•	•
Laboratories - Non-Hazardous	•	•	•
Light Chemical Use (No splash)	•	•	•

Woodworking (Power tools)		•	•

### PLEASE NOTE:

This table is a general guide only and is not an absolute basis for eyewear selection as some working conditions may require customised protection.

"Breathe easy  
in any work  
environment.  
We have just  
what you need  
to get the job  
done."

**RESPIRATORY  
GEAR**

## Respiratory Gear

The ProChoice customised range of disposable, industrial-quality respirators are designed and manufactured with comfort and Australian conditions in mind.

The ProChoice range consists of flat-fold, moulded and the Premium ProMesh disposable respirators.

Our products are colour coded to easily identify the correct model for specific uses.

All ProChoice dust masks meet AS/NZS 1716: Lic 1508 requirements.

### Directions for use of ProChoice Respirators

- Fit the respirator and check leak-tightness before entering the contaminated area
- Wear the respirator for the entire duration of exposure to contaminants
- Use the respirator in accordance with applicable health and safety regulations

### Discard the respirator and replace with a new one if:

- the respirator is removed in a contaminated area
- excessive clogging of the respirator causes breathing difficulty or discomfort
- the respirator becomes damaged
- the smell of vapours becomes apparent (for respirators protecting against vapours)

### And remember:

- Leave the contaminated area if dizziness, irritation or other distress occurs
- Use only once, then discard (one shift maximum)
- Keep unused respirators in their closed box and store in a dry non-contaminated area
- Respirators in unopened boxes and stored as advised must be used within 2 years
- All respirators must be used between -5°C to +50°C
- Installed filters can only be used for up to 8 hours according to limitations to use
- All respirators must be used in accordance with AS/NZS 1716

## Workplace Hazards

### Dust

Is comprised of solid particles that can range in size, including those that can not be seen with the naked eye. Dusts usually occur when a solid material is broken down eg: cutting, sanding, grinding.

### Mist

Consist of tiny droplets of moisture formed when liquids are sprayed or mixed eg: spray painting, dipping. In high concentration of mists, this can turn into fog and obscure vision.

### Fumes

Are tiny metallic or metal oxide particles given off when metals are heated. Fine particulates are formed as the fume cools and condenses eg: welding, smelting.

### Gases

Are substances that become airborne at room temperature and are often invisible eg: Chlorine, Hydrogen sulfide, Carbon monoxide.

### Vapours

Act like gases except they are formed by the evaporation from substances which are normally liquid or solid at room temperature eg: Methylated spirits, petrol.

### Oxygen Deficiency

When the oxygen content of a given atmosphere drops below 19.5%, the atmosphere is considered "oxygen deficient". This is most likely to occur in confined spaces, sewers, ship holds, silos, storage tanks.

NOTE: Monitoring devices should always be used to check oxygen levels of an unknown environment. Conventional dust masks are not suitable for oxygen deficient situations.

## Disposable Respirators

PC101

### Non Toxic Dusk Mask

PC101

- A lightweight mask for comfortable, extended wear
- Aluminium nose-piece can be moulded to individual comfort and seal
- **Quantity per box - 50**
- **Quantity per carton - 20 boxes**

PC301

### Respirator P1

PC301

- P1 rating indicates suitability for protection against mechanically generated particles
- Coloured coded nose-piece and packaging for ease of identification
- Dual straps give firm and comfortable fit
- **Quantity per box - 20**
- **Quantity per carton - 20 boxes**

PC315

### Respirator P1 with Valve

PC315

- P1 rating indicates suitability for protection against mechanically generated particles
- Exhalation ProValve for extra air flow
- Colour coded nose-piece and packaging for easy identification
- Dual straps give firm and comfortable fit
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC305

### Respirator P2

PC305

- P2 rating for protection against mechanically and thermally generated particles
- Coloured coded nose-piece and packaging for ease of identification
- Dual straps give firm and comfortable fit
- **Quantity per box - 20**
- **Quantity per carton - 20 boxes**

PC321

### Respirator P2 with Valve

PC321

- P2 rating for protection against mechanically and thermally generated particles
- Exhalation ProValve for extra air flow
- Colour coded nose-piece and packaging
- Dual straps give firm and comfortable fit
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC531

### Respirator P2 with Valve and Active Carbon Filter

PC531

- Protects against nuisance-level organic vapours in addition to P2 rating
- Exhalation ProValve for extra air flow
- Colour coded nose-piece and packaging
- Dual straps give firm and comfortable fit
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC9111

### Respirator P1 Vertical Flat-Fold

PC9111

- P1 rating for protection against mechanically generated particles
- Designed for easy storage before use
- Individually packed to avoid contamination
- Dual straps give firm and comfortable fit
- **Quantity per box - 20**
- **Quantity per carton - 20 boxes**

PC2122

### Respirator P2 with Exhalation Valve. Horizontal Flat-Fold

PC2122

- P2 rating against mechanically and thermally generated particles
- Exhalation ProValve for extra air flow
- Designed for easy storage before use
- Individually packed to avoid contamination
- Dual straps give firm and comfortable fit
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

## Premium Range

PC821

ProMesh Respirator P2

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit during long periods of wear
- P2 rating protects against mechanically and thermally generated particles
- Moulded nosepiece for close fit
- QuickLock straps for easy fit and release
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC821

PC822

ProMesh Respirator P2 with Valve

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit during long periods of wear
- P2 rating protects against mechanically and thermally generated particles
- Moulded nosepiece for close fit
- QuickLock straps for easy fit and release
- Exhalation ProValve for extra airflow
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC822

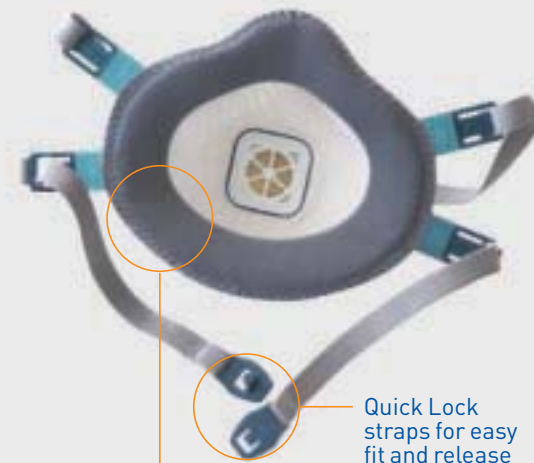

PC823

ProMesh Respirator P2 with Valve and Active Carbon Filter

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit
- Protects against nuisance-level organic vapours in addition to P2 rating
- Moulded nosepiece for close fit
- QuickLock straps for easy fit and release
- Exhalation ProValve for extra airflow
- **Quantity per box - 12**
- **Quantity per carton - 20 boxes**

PC823

Quick Lock straps for easy fit and release

Inner mask is lined with soft velveteen for extreme comfort during long periods of wear

## Hand Protection

ProChoice is recognised as Australia’s leading supplier of industrial gloves since 1992.

The company has grown to include a comprehensive range of personal protective equipment and has also increased the range and quality of gloves sourced from around the world.

ProChoice is Australia’s most comprehensive range of protective, safety and work gloves to meet any industry requirement.

ProChoice has developed its glove range to meet industry requirements and standards. Most of the gloves we sell comply with European Standards. These standards have been adopted in Australia and New Zealand as AS/NZ 2161:1998. They are exactly the same as the European standards EN374, EN388, EN407, EN420 and EN511.

- EN388**
- Resistance to abrasion
  - Blade cut resistance
  - Tear resistance
  - Puncture resistance

- EN374**
- Resistance to chemical hazards; the measurement of time for a chemical to permeate through the glove material

- EN407**
- Resistance to flammability
  - Resistance to contact heat
  - Resistance to convective heat
  - Resistance to radiant heat
  - Resistance to small/large splashes of molten metal

Where applicable, gloves suitable for use within the food industry conform to HACCP accreditation and gloves suitable for medical examination are TGA listed.

Gloves for handling chemicals, for gardening, rigging, medical and gripping; for men, women and those in between; for hot and cold weather, for comfort, durability and hygiene. ProChoice is the answer for excellent hand protection.

### Why gloves are an important aspect of Personal Protection Equipment (PPE)

PPE and hand protection in particular are seen as the last barrier against hazards. That doesn’t mean it’s not vitally important. In Australia in 2002 there were a massive 29,142 workers compensation claims for hand injuries (National Workers’ Compensation Statistics Database – [nosi2.nohsc.gov.au](http://nosi2.nohsc.gov.au)).

Anytime you require employees to wear any type of PPE, you must teach them to wear it in the proper manner and train them to use it. Where possible, eliminate the hazard or process creating the hazard through administrative changes. If that is not feasible, engineering controls such as guards or equipment changes should be investigated. Use training and signs to communicate with employees and help them recognise hazards.

#### For an effective hand protection program:

- Eliminate the hazard completely or use engineering controls to reduce the risk of injury
- Choose appropriate hand protection to fit the task
- Train employees to recognise hazards and use hand protection
- Make it easy for employees to replace hand protection when it becomes worn or damaged
- Monitor and police the program

## Disposable Gloves

DVB

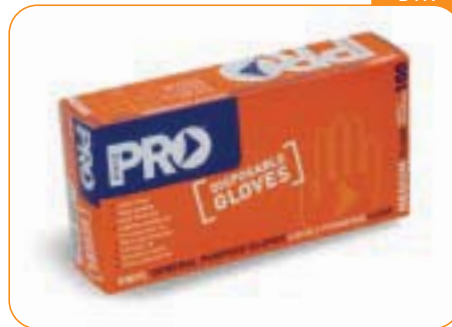

### BLUE Vinyl Gloves

- LIGHTLY POWDERED, close fitting
- Blue colour indicates suitability for use in food industries
- General Purpose
- Latex free – suitable for use by those allergic to latex
- Sizes S, M, L, XL
- **Quantity per box - 100pcs**
- **Quantity per carton - 10 boxes**

## Cotton Gloves

342DG

342CLL, 342CL

342CLKWL, 342CLKW

- Knitted Poly/Cotton** 342DG
- Latex dipped palm & fingers for extra grip 
  - Elasticised, comfortable fit
  - Open knit back for ventilation
  - Individually, hygienically packed
  - Sizes: 7, 8, 9, 10, 11
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Interlock Poly/Cotton liner**
- Ladies** 342CLL  
**Mens** 342CL
- Lightweight and hemmed cuff
  - Bleached for clean appearance
  - May be used as a glove liner
  - Glove can be reversed and used on both sides
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 600 pairs**

- Interlock Poly/Cotton liner with Knitted Wrist**
- Ladies** 342CLKWL  
**Mens** 342CLKW
- Lightweight with knitted wrist band to exclude debris
  - Bleached for clean appearance
  - May be used as a glove liner
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 600 pairs**

342KL, 342K

342KPDBL, 342KPDB

342PD

- Interlock Poly/Cotton liner Ambidextrous Glove**
- Ladies** 342KL  
**Mens** 342K
- 7 gauge knit for strength and ventilation
  - Bleached for clean appearance
  - Can be reversed and used on both sides
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 300 pairs**

- Knitted Poly/Cotton Glove**
- Ladies** 342KPDBL  
**Mens** 342KPDB
- Bleached with black PVC dot grip on one side for extra grip
  - 7 gauge knit for strength and ventilation
  - Bleached for clean appearance
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 300 pairs**

- Cotton Drill Glove** 342PD
- Knitted wrist and black PVC dot grip on single side
  - Cotton drill glove that is tough yet economical
  - Knitted wrist to exclude debris
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 300 pairs**

CDR9, CDB10

342LAT

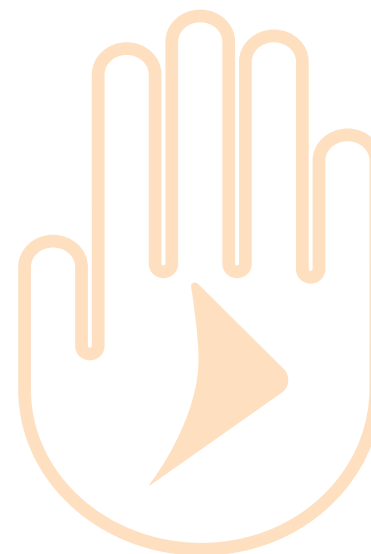

342TCKW

- Cotton Drill Glove**
- Ladies** CDR9  
**Mens** CDB10
- Tough cotton
  - Economical
  - Knitted wrist to exclude debris
  - Red wrist signifies ladies size
  - Blue wrist signifies mens size
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 300 pairs**

- Knitted Poly/Cotton Glove with Red Latex Coating** 342LAT
- Extra tough latex palm and fingers for increased durability and grip
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Terry Cord Gloves with Knitted Wrist** 342TCKW
- Low heat resistant for use in hot areas such as bakeries
  - Knitted wrist to exclude debris
  - Sizes: L
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

## Leather Gloves - General Purpose

- Candy Stripe 417PB**
- Cow split leather palm, cotton backed
  - Lightweight and economical
  - Safety cuff for wrist protection
  - Knuckle bar for added protection
  - Suitable for many industries
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Grey Leather 7407**
- 'A' grade quality heavy duty all-chrome leather glove
  - Tough and durable with a 5cm chrome leather cuff for added protection
  - Size: XL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

- Yellow Grey Leather 940GY**
- Heavy duty cow split one-piece palm
  - Yellow safety cuff and knuckle bar for extra protection
  - Lightweight, economical, cotton back
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

- Green & Grey Stripe R88FG**
- Heavy-duty cow split leather re-inforced palm, thumb and forefinger for extended toughness and durability
  - Safety cuff for wrist protection
  - Knuckle bar for added protection
  - Suitable for many industries
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

- Green Leather R99KG**
- Extra heavy-duty cow split leather re-inforced palm, thumb and fingers for extended toughness and durability
  - Safety cuff for wrist protection
  - Knuckle bar for added protection
  - Suitable for many industries
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

## Riggers Gloves

- Rigger Glove 803C**
- Grey 'suede look' cow split rigger glove
  - Tough and durable
  - Colour coded cuff for easy size identification
  - Size: L, XL, XXL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Rigger Glove PGL41**
- Pig grain beige rigger glove
  - Soft feel provides dexterity
  - Wing thumb, stitch-free palm
  - Colour coded cuff for easy size identification
  - Sizes: S, M, L, XL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Rigger Glove CGL41N**
- Cow grain grey rigger glove
  - Wing thumb, stitch-free palm
  - Colour coded cuff for easy size identification
  - Sizes: S, M, L, XL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Rigger Glove Yellow Beige CGL41BY CGL41B**
- "BOSS" cow grain rigger glove
  - Wing thumb, stitch-free palm
  - Colour coded cuff for size identification
  - Sizes: S, M, L, XL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Rigger Glove CGL41A**
- Beige cow grain rigger glove
  - Premium quality and thickness
  - Wing thumb, stitch-free palm
  - Colour coded cuff for size identification
  - Sizes: S, M, L, XL, 2XL
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Rigger Glove CGL41VS**
- Beige cow grain rigger glove
  - Premium quality and thickness
  - Wing thumb, stitch-free palm
  - Velcro strap to ensure tight fit and to exclude debris from glove
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

## Rigger/Reflector Gloves

## PVC Gloves

- Winter Glove PGL41TL**
- Pig grain beige rigger glove
  - 100gm **3M™** Thinsulate lining
  - Dexterity and feel plus warmth
  - Wing thumb, stitch-free palm
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 60 pairs**

- Rigger Glove CGL41BL-EXT**
- "BOSS EXTENDER" cow grain rigger glove
  - Wing thumb, stitch-free palm
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- GLO-GLOVE Rigger CGG10**
- "A" Grade cow grain palm
  - Orange reflective back
  - 25mm yellow reflective tape for day and night use
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- REFLECTOR Rigger CGRTL**
- "A" Grade cow grain palm
  - Orange reflective back
  - 25mm yellow reflective tape for day and night use
  - 100g **3M™** Thinsulate lining
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 60 pairs**

- RED PVC Glove - Short PVC27**
- Single dipped
  - Resistant to oil, grease and chemicals
  - Available in 27cm for hand protection
  - Available in 45cm for hand and forearm protection
  - Interlock lined for easy on/off
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- RED PVC Glove with Knitted Wrist PVC27KW**
- Single dipped
  - Resistant to oil, grease and chemicals
  - Available in 27cm for hand protection
  - Knitted wrist to exclude debris
  - Interlock lined for easy on/off
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- GREEN PVC Glove - Short PVC27DD**
- Double dipped with sand finish for improved grip and increased resistance to oil, greaser and chemicals
  - 27cm for hand protection
  - Jersey lined for comfort and sweat absorption
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 72 pairs**

- RED PVC Glove - Long PVC45**
- Single dipped
  - Resistant to oil, grease and chemicals
  - Available in 27cm for hand protection
  - Available in 45cm for hand and forearm protection
  - Interlock lined for easy on/off
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 60 pairs**

- GREEN PVC Glove - Long PVC45DD**
- Double dipped with sand finish for improved grip and increased resistance to oil, greaser and chemicals
  - 45cm for hand and forearm protection
  - Jersey lined for comfort and sweat absorption
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 48 pairs**

## Latex Gloves

GG105

### Latex Glass Gripper Glove

GG105

- Yellow Latex rubber glove
- Ripple palm pattern for added grip
- Open back for ventilation
- Jersey lined for comfort and sweat absorption
- Knitted wrist to exclude debris
- Size: One size fits all
- **Also available in Premium Quality Part Number GG107**
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

GL

### Green Latex Glove

GL

- Green Latex rubber glove
- Heavy duty ripple gives excellent grip in wet environment
- Interlock lined for added comfort
- Size: 9, 10, 11
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

MSLY

### Yellow Silver Lined Glove

MSLY

- Premium Latex rubber food handling gloves
- Nitrile blend for improved fat and abrasion resistance
- Silver lined for easy slip-on
- Individually packed and sanitised to guarantee cleanliness and to inhibit bacterial growth
- Minimal latex protein content to avoid latex allergy reaction
- 30 cm length
- Size: S, M, L, XL, 2XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 144 pairs**

MSLB

### Blue Silver Lined Glove

MSLB

- Premium Latex rubber food handling gloves
- Nitrile blend for improved fat and abrasion resistance
- Silver lined for easy slip-on
- Individually packed and sanitised to guarantee cleanliness and to inhibit bacterial growth
- Minimal latex protein content to avoid latex allergy reaction
- 30 cm length
- Size: S, M, L, XL, 2XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 144 pairs**

## Nitrile Gloves

342NITN

NBR

NBRB

### NITRA-GRIP

342NITN

- Nitrile dipped palm on poly/cotton
- Extra grip and abrasion resistance
- Open back improves ventilation
- Size: S, M, L, XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

### SUPER-LITE Yellow

NBR

- Light weight 3/4 dipped yellow nitrile glove
- Abrasion and chemical resistant
- Knitted wrist to exclude debris
- Open back improves ventilation
- Size: 7, 8, 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

### SUPER-LITE Blue

NBRB

- Light weight 3/4 dipped blue nitrile glove
- Abrasion and chemical resistant
- Knitted wrist to exclude debris
- Open back improves ventilation
- Size: 7, 8, 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

NBRFB

NBRHB

NBRFB

### SUPER-LITE Blue

NBRFB

- Light weight fully dipped blue nitrile glove for full hand protection
- Abrasion and chemical resistant
- Knitted wrist to exclude debris
- Size: 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

### SUPER-GUARD Blue

NBRHB

- Heavy weight 3/4 dipped blue nitrile glove
- Abrasion and chemical resistant
- Knitted wrist to exclude debris
- Open back improves ventilation
- Size: 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

### SUPER-GUARD Blue

NBRFB

- Heavy weight fully dipped blue nitrile glove for full hand protection
- Abrasion and chemical resistant
- Knitted wrist to exclude debris
- Size: 8, 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

NBRFBSC

NNF

### SUPER-GUARD

NBRFBSC

- Heavy weight fully dipped blue nitrile glove for full hand protection
- Abrasion and chemical resistant
- Canvas safety cuff
- Size: 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

### LITE-GRIP Gloves

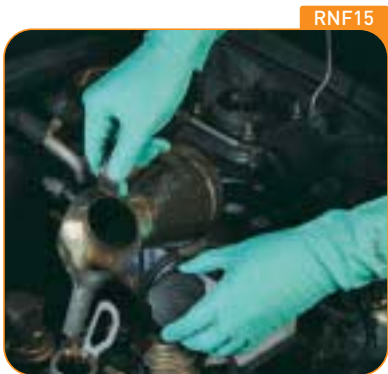

NNF

- Nitrile foam coated on nylon gives excellent dexterity
- Nylon liner makes this glove lightweight and breathable
- Ideal for production line and small parts handling
- Size: 7, 8, 9, 10
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

## Chemical Resistant Gloves

RNF15

### NITRILE Chemical Glove

- Premium grade Nitrile for maximum abrasion and chemical resistance
- Premium grade soft cotton flock lining for comfort
- Electrostatic lining technology prevents lining being shed and improves comfort
- Textured palm for enhanced grip
- 33cm length
- Sizes: S, M, L, XL, 2XL, 3XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 144 pairs**

RNU22

### NITRILE Chemical Glove

- Premium grade Nitrile for maximum abrasion and chemical resistance
- Electrostatic lining technology prevents lining being shed and improves comfort
- Textured palm for enhanced grip
- 45 cm length for forearm protection
- Sizes: M, L, XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 36 pairs**

BK

### BLACK KNIGHT Latex Glove

- Natural rubber Latex offering better chemical and mechanical resistance
- Sanitised for guarantee of cleanliness and to inhibit bacterial growth
- Satin, unflocked lining for improved feel and dexterity
- 45 cm length for forearm protection
- Sizes: 8, 9, 10, 11
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 36 pairs**

NEO

### BLACK NEOPRENE Glove

- Heavy duty Neoprene, excellent for chemical handling, with a high resistance to most solvents, mild acids, oils and fats
- Premium grade soft cotton flock lining for comfort
- Electrostatic lining technology prevents lining being shed and improves comfort
- Sizes: L, XL, 2XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 144 pairs**

NEOYB

### BLUE NEOPRENE Glove

- Dipped blue Neoprene palm over yellow Latex rubber for increased chemical resistance
- Triple dip technology improves resistance to puncture and the effects of fats and oils
- Textured palms and fingers for improved grip in wet environments
- Soft cotton flock lining for comfort
- Sizes: M, L, XL, 2XL
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 144 pairs**

## A General Guide to the Safe Handling of Chemicals

Know the physical and health hazards associated with the chemicals you are using. Carefully read the chemical's label and Material Safety Data Sheet (MSDS) before using a chemical for the first time. Also review the appropriate Standard Operating Procedure. These documents will provide any special handling information. After the potential hazards associated with the chemicals and the experimental processes are evaluated you can modify work procedures so that workplace hazards are minimised or eliminated.

### Keep the following guidelines in mind when handling chemicals:

- Prior to working with a chemical, always review the MSDS
- Do not work alone with chemicals. If you must work alone, you must notify someone as to where you will be and when
- Use required personal protective equipment (PPE). Eye protection is always appropriate
- Always use chemicals with adequate ventilation or in a chemical fume hood. Refer to the MSDS and the Standard Operating Procedure to determine what type of ventilation is needed
- Keep your hands and face clean. Wash thoroughly with soap and water after handling any chemical and whenever you leave the work area.
- Keep eyewash stations and safety showers, fire extinguishers, fire alarm stations, and exits clear at all times
- Never eat, drink, apply cosmetics or wear open shoes in a chemical handling environment
- Remove PPE, including gloves before entering common areas
- Chemical and blood spill kits must be readily available
- Do not store food in refrigerators used for chemicals
- Ensure chemicals are properly labelled
- Do not use equipment unless you have been properly instructed

This guide is produced as an aid to selection of hand protective equipment and does not form part of a contract. This information does not release the user of their duties described by Australian Occupational Health and Safety Regulations. It does not override recommendations made in risk assessments or safety data sheets. This information should not be considered a final or authoritative list. Paramount Safety Products accepts no responsibility or liability for loss or injury from the use of equipment that does not comply with the recommendations made to the user following the required OH & S assessment.

Test data is intended as a guide only. It is recommended that you perform your own evaluation based on actual working conditions.

## Welding Gloves

### BLACK & GOLD Glove BGW16

- Good quality cow split leather for comfort and economy
- Lined and welted
- 406mm (16 inches) long for forearm protection
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 48 pairs**

### GREEN & GOLD Glove GW16

- Good quality cow split leather for comfort and economy
- Reinforced palm to first finger for added durability
- Lined and welted
- 406mm (16 inches) long for forearm protection
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 48 pairs**

### HOT SHOT Kevlar Glove BRW16E

- High quality red cow split leather
- Kevlar stitched to withstand high temperatures for longer periods
- Lined and welted
- Reinforced palm to first finger for added durability
- 406mm (16 inches) long for forearm protection
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 48 pairs**

### BLUE & GOLD Kevlar Glove KBW16E

- High quality blue cow split leather
- Kevlar stitched to withstand high temperatures for longer periods
- Lined and welted
- Reinforced palm and thumb for added durability
- 406mm (16 inches) long for forearm protection
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 48 pairs**

### GREEN & GOLD Kevlar Left Hand Pair LGW16E

- Two left hand gloves per pair avoids costly waste of less commonly used right hand glove
- High quality cow split leather for economy and comfort
- Kevlar stitched to withstand high temperatures for longer periods
- Lined and welted
- Reinforced palm to first finger for added durability
- 406mm (16 inches) long for forearm protection
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 48 pairs**

### TIG Welders Glove TIGW12

- Soft, lightweight pig grain leather
- Externally stitched for enhanced dexterity, comfort and feel
- 300mm overall length
- Size: One size fits all
- **Quantity per pack - 12 pairs**
- **Quantity per carton - 120 pairs**

## Kevlar Gloves/Accessories

## General Glove Guidelines

- Knitted Kevlar Glove** **KK**
- 100% Kevlar knitted (7 gauge) gloves
  - Designed to increase cut and abrasion resistance
  - Gives moderate heat protection
  - Ambidextrous – can be reversed and used on both sides
  - Size: 10
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Knitted Kevlar Blue Latex Glove** **KKLD**
- 100% Kevlar knitted (7 gauge) gloves with blue dipped latex palm to enhance grip
  - Designed to increase cut and abrasion resistance
  - Gives moderate heat protection
  - Size: 8, 9, 10
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 120 pairs**

- Felt Woven Kevlar Glove** **KF40**
- Designed for heat, cut and abrasion resistance
  - Can withstand temperatures up to 350°C
  - 400mm overall length
  - Size: One size fits all
  - **Quantity per pack - 12 pairs**
  - **Quantity per carton - 36 pairs**

- Glove Clip Keeper** **GCK**
- Never misplace your gloves again with this convenient glove clip
  - **Sold individually**

### Glove selection

- Select gloves which are resistant to the chemicals you may be exposed to. Consult the relevant Material Safety Data Sheet (MSDS) for the chemical you are using which may recommend a particular glove material. No glove is completely resistant to a chemical. Even the best chemically resistant glove will breakdown after repeated chemical exposure.
- Select gloves of the correct size and fitting; gloves that are too small are uncomfortable and may tear whereas overlarge gloves may interfere with dexterity.
- Latex allergy alert! Do not wear latex gloves if you think you are susceptible to or have a latex allergy.

### Inspection

- Before use, all gloves should be inspected for indications of degradation (swelling, cracking, shrinking, or discolouration) and any signs of holes or punctures. A damaged glove should be immediately taken out of service.
- Change gloves frequently, especially thinner disposable gloves that have been exposed to chemicals. If a glove becomes contaminated it should be removed and discarded as soon as possible.
- Dispose of contaminated gloves properly. Do not attempt to re-use disposable gloves.

### Removal

- Remove gloves before leaving the immediate work site to prevent contamination of door knobs, light switches, telephones, etc.
- When removing gloves, pull the cuff over your hand and turn the glove inside-out. Wash your hands thoroughly with soap and water after wearing gloves

"When it comes to safety workwear it's simple. It's got to be tough enough for the job. ProChoice workwear is comfortable, durable and proven in performance."

PROTECTIVE  
WORKWEAR

## Protective Workwear

**Protective Workwear is the clothing worn by workers to reduce their exposure to hazards in the workplace.**

**ProChoice Protective Workwear provides extra protection for the wearer when other risk control measures do not adequately control exposure to hazards and to enhance safety in the workplace.**

**Sometimes it's easy to forget about using the appropriate workwear but the simple fact is that it helps protect from accidents.**

And remember, it's an employer's obligation to:

- Ensure all protective workwear meets the appropriate standards – look for the Standards Australia marking
- Ensure each item of protective workwear is appropriate for each particular workplace hazard
- Ensure the clothing fits the individual worker
- Provide training in the appropriate use of workwear
- Provide additional training to supervisors to ensure they understand their role in enforcing wearing and use of protective workwear
- Ensure all protective workwear is cleaned and adequately maintained

(This has been adapted from [www.workcover.vic.gov.au](http://www.workcover.vic.gov.au))

## Disposable Coveralls

The ProChoice range of coveralls are built with the wearer in mind. They have been designed for maximum protection and comfort.

DOB

### Disposable Coveralls Blue

DOB

- Lightweight polypropylene material with hood and elastic waist, cuff and ankle
- Easy to put on and remove
- Two way zipper for when nature calls
- Ready access to clothing underneath
- Durable and economical
- Sizes: S, M, L, XL, 2XL, 3XL
- **Individually packaged**
- **Quantity per carton - 50**

DOW

### Disposable Coveralls White

DOW

- Lightweight polypropylene material with hood and elastic waist, cuff and ankle
- Easy to put on and remove
- Two way zipper for when nature calls
- Ready access to clothing underneath
- Durable and economical
- Sizes: S, M, L, XL, 2XL, 3XL
- **Individually packaged**
- **Quantity per carton - 50**

DOWP

### PROVEK Disposable Coveralls

DOWP

- Made from a polyethylene (Olefin) film laminated to a polypropylene spun bound non-woven substrate
- Lightweight and soft with excellent strength
- Breathable to reduce moisture build up
- Water vapour permeable and water repellent
- Excellent barrier to dust and broad range of chemicals
- Lint-free
- Good opacity
- Two way zipper for when nature calls
- Ready access to clothing underneath
- Sizes: S, M, L, XL, 2XL, 3XL
- **Individually packaged**
- **Quantity per carton - 50**

## Rain Gear

Hardwearing, economical weatherproof rain gear with complete water proof protection.

Keeping you dry and warm on those rainy days.

RC

### Yellow PVC Rain Coat

RC

- PVC/Polyester with elastic cuffs plus studs
- Two large pockets
- Full length for lower leg protection
- Hood with drawstring
- Sizes S, M, L, XL, 2XL, 3XL, 4XL
- **Individually packaged**
- **Quantity per carton - 20**

RJ, RP

### Yellow PVC Rain Jacket

RJ

- PVC/Polyester with elastic cuffs and studs
- Two large pockets
- 3/4 length for easier movement
- Hood with drawstring
- Sizes S, M, L, XL, 2XL, 3XL, 4XL
- **Individually packaged**
- **Quantity per carton - 20**

### Yellow PVC Rain Pants

RP

- Yellow PVC/Polyester with elastic waist and ankle
- Pocket slots allow access to pockets of clothing underneath
- Sizes S, M, L, XL, 2XL, 3XL, 4XL
- **Individually packaged**
- **Quantity per carton - 20**

## Welding Gear

The ProChoice range of protective clothing for welders is made from chrome leather for maximum protection against welding spatter and radiant heat, but even the best protection in the world won't guard against being careless.

It might not be the best looking outfit you've ever worn, but it's the toughest... and it'll save your skin.

WA96, WS

### Welders Apron

WA96

- Grey chrome leather
- Buckle and leather strap for quick and easy fitting and removal
- Size: 900mm x 600mm
- **Sold individually**
- **Quantity per carton - 20**

### Welders Sleeves

WS

- Grey chrome leather
- Buckle and leather strap for quick and easy fitting and removal
- 630mm length gives complete arm protection
- Size: One size fits all
- **Sold individually**
- **Quantity per carton - 20**

WC, WA108

### Welders Cap

WC

- All chrome leather
- 200mm nape for neck protection
- Size: One size fits all
- **Sold individually**
- **Quantity per carton - 20**

### Welders Apron

WA108

- Grey chrome leather
- Buckle and leather strap for quick and easy fitting and removal
- Size: 1000mm x 800mm
- **Sold individually**
- **Quantity per carton - 20**

## Welding Gear

WJ

### HOT SHOT Welders Jacket

WJ

- High quality red cow split leather
- Kevlar stitched to increase resistance to heat, cuts and abrasion
- Staggered double studs to ensure a secure fit
- Moderate heat protection
- Sizes: L,XL,2XL,3XL
- **Sold individually**
- **Quantity per carton - 20**

WKP, WSV

### Welders Leather Knee pads

WKP

- All chrome leather
- Velcro fastening
- Sizes: One size fits all
- **Sold individually**
- **Quantity per carton - 20**

### Welders Leather Spats

WSV

- Grey chrome leather
- Velcro fastening for quick and easy fitting and removal
- Protects footwear from welding spatter
- Sizes: L, XL
- **Sold individually**
- **Quantity per carton - 20**

WB

### Welding Blanket

WB

- Heavy duty chrome leather for added durability
- Kevlar stitched to increase resistance to heat, cuts and abrasion
- Generous size 1800mm x 1800mm
- Moderate heat protection
- **Sold individually**
- **Quantity per carton - 5**

NOTE: Leather welding blankets are designed to deflect welding spatter onto an inflammable surface. To prolong the life of the welding blanket, do not let welding spatter accumulate as this will cause damage.

## Safety Vests

The ProChoice range of safety vests has a number of options to ensure compliance with all safety situations. These are lightweight, comfortable to wear and have maximum visibility.

SVY-NT Front

Fluoro Yellow Safety Vest SVY - NT

- No reflective tape – compliant to Australian Standards - Class D
- Sizes: M, L, XL, 2XL, 3XL, 4XL
- **Sold individually**
- **Quantity per carton - 50**

SVO-NT Back

Fluoro Orange Safety Vest SVO - NT

- No reflective tape – compliant to Australian Standards - Class D
- Sizes: M, L, XL, 2XL, 3XL, 4XL
- **Sold individually**
- **Quantity per carton - 50**

SVY-AS Front

Fluoro Yellow H Back Safety Vest SVY - AS

- With 'H' Back reflective tape to meet Australian Standards - Class D/N
- Sizes: M, L, XL, 2XL, 3XL, 4XL

- **Quantity per carton - 6**

SS1

**SUNSCREEN 1 LITRE Bottle**

**SS1**

- SPF 30+ with moisturising Vitamin E
- 3 hours water resistant
- Pump pack bottle
- **Quantity per carton - 6**

**GENERAL  
SAFETY GEAR**

## General Safety Gear

### The ProChoice commitment to the safety of Australian's doesn't stop with Personal Protective Equipment.

Safe practices, common sense and awareness are also essential to preventing accidents.

#### Safety is contagious, spread it.

Your attitude to safety is not only important to your own welfare but also that of your workmates and the attitudes and the actions of your workmates are essential to your safety. Take unsafe practices by others personally.

#### Be safety smart right from the start.

Take a look at the area you are working in to make sure it's safe for you and others. ProChoice has an increasing range of barrier products to ensure the work place is safe for workers and the general public. Tapes, bollards, barriers and warning signs can help keep people away from workplace hazards.

#### Read the signs. Heed the signs.

Work places display safety signs advising of hazards, where to wear specific PPE and when to observe certain precautions. These are important, so take notice and comply with the messages.

#### The secret to safety is prevention.

We all know this simple rule but sometimes we think we know better.

Work conditions vary, and your work practices and equipment should be chosen accordingly.

Dress appropriately for work and weather conditions, whether it be hot, cold, dusty, noisy, wet or windy environments. Think about the environment and adapt your PPE in line with your specific workplace OH & S regulations to ensure your safety at all times.

#### Remember, safety doesn't happen by accident.

## Paramount - The Name Behind the Brand

Paramount Safety Products, a wholly-owned Australian company, is the name behind the ProChoice brand. Established in 1992, we have grown to become a leading supplier of Personal Protective Equipment to Australian Industry.

Paramount has developed and expanded on the philosophy of good service and competitive prices for quality products. We are 100% committed to achieving our goal of becoming Australia's leading safety products company.

Sourcing the best products around the globe, Paramount Safety Products is always on the look out for new products to include in our ProChoice range. Our products are sourced to meet our exacting requirements of quality and price – and manufactured to Australian, New Zealand or European standards wherever possible.

### Research and Development

As our company continues to grow, we will be investing more in the research and development of new products for the ProChoice range. We welcome your feedback and ideas so that we can better meet your safety needs.

We work closely with our manufacturers to develop quality products that are comfortable, stylish and provide excellent value for money. We believe these are the key ingredients to the success of our range.

### Distribution

At Paramount Safety Products, we are committed to providing our stockists with:

- Efficient, prompt deliveries from our fully stocked warehouses to anywhere in Australia
- Attention to detail to ensure correct goods and quantities arrive safely
- Excellent customer support at all times

"Our sales and distribution network is backed up with our most important asset - our people, who will always go that extra step to ensure your requirements are met and expectations are exceeded."  
- Rob Bird, Managing Director

### Our People

We pride ourselves in our team and aim to provide:

- Professional, personal and prompt service from trained people who are there to help
- Excellent knowledge of the ProChoice range and how it can be applied to different industries and working scenarios
- A commitment to making Australia a safe place to work

### Loyalty

We do not supply directly to the end user. ProChoice may only be purchased from an authorised stockist.

### Business Development

Our stockists are very important to our business and we value our relationship with them.

We are always keen to develop the ability of our stockists to promote ProChoice products and educate customers about our range. There are a number of ways we work with our stockists to do this – through signage, assistance with in-store displays, point of sale material, trade exhibitions, displays and with staff education seminars.

If you are interested in learning more about this service, please contact your local Paramount Safety Products representative to find out how we can work with you. See the back of this catalogue for our contact details.

**Please login to the stockist purchasing area of our website if you wish to order any of our products online: [www.paramountsafety.com.au](http://www.paramountsafety.com.au)**
